PROFESSIONAL EXPERIENCE

LORIA MEDICAL USA | Director of Analytics & Business Intelligence | June 2023 – June 2026

- Improved executive visibility by building KPI dashboards tracking lead conversion, patient acquisition, procedure volume, workforce productivity, revenue performance, and location-level trends.
- Enabled multi-state performance management by developing analytics infrastructure that helped leaders compare location results, identify gaps, and prioritize growth initiatives across North Carolina, Florida, and Massachusetts.
- Supported growth from approximately two procedures daily to more than 12 procedures daily by forecasting staffing needs, patient demand, scheduling capacity, and procedure volume.
- Improved marketing and sales accountability by helping code, develop, and implement InboundMachine, a custom CRM deployed across every location to track ROI, conversion, follow-up completion, and pipeline movement.
- Supported revenue growth exceeding \$10M annually by translating operational and financial data into executive reporting packages used for performance reviews and location accountability.
- Reduced reliance on manual updates by standardizing reporting routines across marketing, sales, clinical, and operations teams around shared KPIs.

CAROLINA MEN'S CLINIC | Practice Analytics & Operations Manager | March 2021 – June 2023

- Improved clinic performance visibility by building KPI reports measuring provider productivity, patient throughput, schedule utilization, lead conversion, and revenue trends.
- Increased provider utilization and reduced missed revenue opportunities by analyzing patient flow, schedule utilization, and capacity constraints to identify bottlenecks.
- Turned daily volume, appointment outcomes, staffing needs, and operational bottlenecks into clear action items through recurring leadership dashboards.
- Strengthened conversion management by using CRM and practice-management data to monitor pipeline movement, appointment outcomes, follow-up completion, and sales-clinical handoffs.
- Improved accountability across front-office, clinical, and leadership teams by standardizing reporting routines and connecting daily activity to performance outcomes.
- Supported workforce planning by converting appointment volume, provider capacity, and scheduling trends into staffing recommendations for clinic leaders.

LPL FINANCIAL | Internal Regional Director, Advisor Recruitment | September 2019 – March 2021

- Improved advisor recruitment targeting by analyzing production, asset levels, market opportunity, and business model data to identify higher-value prospects.
- Increased leadership visibility into recruiting performance by building CRM pipeline reporting for advisor movement, follow-up activity, conversion opportunities, and forecasted outcomes.
- Helped leaders prioritize outreach and resource allocation by preparing territory performance summaries and candidate pipeline analyses.
- Accelerated transition readiness by organizing advisor documentation, compliance requirements, onboarding steps, and action plans across business development and internal support teams.
- Improved recruiting execution by monitoring activity and engagement trends to identify pipeline gaps, strengthen follow-up consistency, and support conversion efforts.

TRANSPORTATION INSIGHT | Business Development Manager | June 2017 – September 2019

- Improved business development execution by tracking prospecting activity, call volume, pipeline movement, lead quality, and conversion outcomes.
- Increased leadership visibility into sales progress by creating reporting routines for team productivity, territory activity, pipeline health, and revenue-generation efforts.
- Strengthened solution positioning by analyzing customer needs and shipping challenges to support more targeted outreach and better handoffs to operations.
- Improved customer experience by aligning sales activity with operations and account management capacity, strengthening follow-through after handoff.
- Improved communication and accountability by using performance trends and customer feedback to recommend workflow improvements across sales execution.

EDUCATION

- Bachelor of Science, Health Systems Management, University of North Carolina at Charlotte
- Professional Certificate, Data Analytics, University of North Carolina at Chapel Hill
